## What We Do

---

### Thank You So Much

---

**Thank You** for taking the time to learn what we do. We hope that attending our Coffee Presentation was worth your time. We also hope that you can take back ideas to help you in your current marketing efforts.

We feel that we have developed an effective and versatile program to give small businesses a better way to spread their message.

It's no surprise that most companies see a sharp increase in their sales activity as a result of this marketing program.

**We hope you become a Client** and we would work tirelessly to produce an affective message to achieve whatever objectives you have in mind.

In the process, you will reduce your marketing costs since you are repairing the weakest link in the sales process.

**Do they work?** Well, we now have 12 pages of quotes from happy Clients. What's more, you can use your Impact Movie over 20 ways and you can use it for years – try that with other marketing programs.

**But the decision is yours to make** and we are quite sure that you'll make the best decision for your company.

**To reach us,** just call 503-620-3377. We answer the phones directly and we're usually working long crazy hours.
